

COVID-19 Guidelines

In order for us to stay open and not go to curbside service, we really need your help in following our COVID-19 guidelines.

1. BPAH does require a mask pulled up above your nose at all times while you are in the building.
2. Only one person per pet inside the building during appointments.
3. If you need refills on medicines or preventatives like Heartgard/Nexgard, please call in advance so we can prepare medications and handle payment over the phone before you get here, minimizing traffic in the building.
4. If you have cough, fever, shortness of breath, or have had any contact with a COVID-positive person, please call before entering the building.

Thank you for helping keep everyone safe and healthy!
